EDUCATION

2024 -
EÖTVÖS LORÁND UNIVERSITY

- Bachelor of Computer Science

SKILLS

- Precise problem solving
- Analytical thinking
- Independent learning and self-development skills
- Effective communication
- Team collaboration
- Advanced Python skills
- Basic proficiency of C, C#, Java, Haskell

LANGUAGES

- Hungarian - fluent
- German - intermediate
- English - intermediate

HOBBIES

- Coding
- Music
- Chess
- Reading

PROFILE

I am a motivated computer science student with strong problem-solving and analytical skills. I focus on writing clean and maintainable code. My passion is about learning new technologies and working in collaborative environments. I am seeking an opportunity to grow as a junior software developer.

WORK EXPERIENCE

- **Logiscool** 2021 - 2022
Trainer
 - Introducing primary school students to the world of programming.
 - Introduction to programming theorems and recursion for advanced learners.
 - Taking on substitutions, teaching several groups at the same time.
 - Individual lesson preparation and instruction.

PROJECTS

Caesar encrypter (ongoing)

- A program written in C.
- Several encryption and decryption functions.
- Focus on documentation.

OTHERS

Python-based final exam task

- A final exam written in Python.
- Demonstrated understanding of basic algorithms and programming theorems
- The maximum score was achieved.
